

Attendance note

SU/JH Impress

03/06/2016

SU rang JH, we had received 12 responses, one with a number of signatories.

We didn't intend to send these over at this stage (unless IMPRESS wanted to make a request to the contrary, which we would consider) as we thought it would be more useful for us to go through these in detail (we were already doing this) to extract matters we would particularly like to hear from IMPRESS on. They were obviously, as previously, free to comment on whatever other matters they wished.

JH said that he was on holiday so would not be able to look at this until his return next week in any case. SU said that we should be in a position to send over the responses and the questions Tuesday/Wednesday next week.

JH mentioned that IMPRESS were going through the questions we sent through previously. SU said in addition to the questions we had sent over then and the ones we were going to send over next week, we would have a number of other questions which arose from their application/ replies which we would probe during the verification/validation process.

SU
