Dear Jonathan,

We have now had the opportunity of considering the IMPRESS response.

We note that as well as providing clarification you have made a number of changes to some of the core supporting documentation that forms part of your application. These include changes that have been made to your regulatory scheme ( listed by you under criteria 8A, 9, 11, 12A and 22), your regulatory scheme procedures (criteria 9, 11, 12A) and the regulatory scheme agreement (criterion 15).

In those circumstances, as previously discussed, we consider it appropriate to issue a second call for information on your amendments. We intend to do this on Wednesday 4 May and the call for information will run for 20 working days as required by our published procedures.

We only consider it necessary to publish a further call for information on Part A of your response. Although your full response will be before the Board (and will be published at the end of the process) only Part A and the accompanying documents will be published by us at this stage. You will appreciate from the PRP's published guidelines on handling applications that the purpose of a call for information is to allow people to submit information about the applicant or the application relevant to the criteria in Schedule 3 of the Royal Charter supported by evidence. With this in mind I would be obliged if you could provide us with Part A as a standalone PDF no later than 3pm on Tuesday 3 May 2016 so there is no delay in the call being put out.

Please do not hesitate to contact me should you have any queries in relation to the above.

Best,

Susie
