Subject: RE: NMA Letter to PRP

Dear Ms Uppal,

Thank you for your letter confirming that your Board will be considering the Impress report on itself at your meeting on 24th October . I would be grateful if you could confirm if this section of your meeting will be open to the public.

It would also be helpful to know if you will be consulting the public as part of your review process as to whether or not the conduct of the founder and CEO of Impress , and other Board and Committee warrants the withdrawal of recognition by the PRP.

Regards,

David Newell
