

Greetings

I am a member of the public, a supporter of the Royal Charter and wish to see the Leveson Report delivered fully and effectively. My interest stems from being a victim of what is probably the greatest hoax in the history of the press/media. It has lasted for some 25 years and in each of my three submissions to the PCC, the items in question were described as accurate by the PCC. In my experience, the current system of press regulation is corrupt.

I have considered the consultation and read Hacked Off's submission to the PRP consultation. I support the submission by Hacked Off and trust that the PRP will take note of the comment contained therein.

I look forward to sending a fourth submission to a credible, effective and independent regulator, which operates in a transparent manner.

Regards
