Dear Dr Wolfe QC,

Re: The External IPSO Review

I write in response to your letter dated 3 March 2016 regarding my invitation to meet.

I understand that you have not needed to form a view formally about IPSO and may not need to do so. I am looking for input from as many sources as possible and I wrote because I thought that you might have picked up general, or specific, impressions that it would help me to know about, as a result of talking to IPSO or other stakeholders.

If we do meet, I would be content for everything to be on the record or for some, or all, of it to be off the record as suited you. If you conclude that it would be best for you not to meet me, I will not go out of my way to say anything about that. However, for your reference, when my report is published, I will most likely be including a list of those I have invited to engage with the review, your name would of course appear on that list.

I look forward to hearing from you,

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Joe Pilling', with a stylized flourish at the end.
