

Attendance note

26/09/2016

SU/JH

SU rang JH from IMPRESS. We have received 8 responses (2 are from the same stakeholder) and analysing these now. We will send them over so they can start reading. We have been analysing the responses and will have a few additional specific questions for them – we should be in a position to send that over later today/tomorrow for them to start considering.

JH will have a look at the responses and give SU a call later as he was in a meeting.

Speaking to JH later – we would send over the issues which we would like them to specifically address. Once we have their view then we will be doing a short supplemental report which we will get over to them. As before they will then have some time to let us know if there are any areas of disagreement – we will then amend the draft supplemental report or where we don't agree, make their comments available to the Board.

If they can let SU know (in the next few days) how long they need to respond we can make a decision on when the Decision hearing will take place.
