

Telephone Attendance note

07/03/2016

Ringed Jonathan Heawood. We had received 12 responses and will be sending them all over as the majority of comments were in relation to the criteria. Where they were not, it was self-evident and some responses referred to other responses so it was prudent to supply everything we had received.

JH asked if we could send them over by 3pm as he had a team meeting – that should be fine (SU then asked SE to send over)

Impress could come back to us if they needed more time (and we would consider the request) or if they had questions arising from the consultation responses. SU reminded JH that we would be meeting with Impress to go through various questions arising from their application once we had received their response.
