**Subject:** RE: IMPRESS response

Dear Jonathan,

Many thanks for the IMPRESS response. We are now reviewing this and should be in a position to let you have a draft supplemental report sometime tomorrow.

I can confirm that we will need a representative from IMPRESS to be available in case the PRP Board have questions which we are unable to assist them with. I understand of course that the representative may not be able to answer the questions straightaway and, depending on the nature of the question, may need an appropriate amount of time to seek the answer. I will check with our Board whether they would be happy for the response to be given in writing or whether they would want the representative to give it orally, at a reconvened meeting if necessary. I suspect that it would depend on the nature of the question (as there may be supplemental questions depending on the response).

Best

Susie
