

To PRP,

The ability of the press to keep saying 'NO' to regulation is very close to ending.

The extensive feet dragging exercise by those given real power to impose regulation is inexcusable and obviously some of those people should be moved sideways in order to allow those with integrity to 'actually impose regulation' rather than just endlessly waffle and do nothing, but take a salary.

In 2012, Prime Minister John Major, stated during the Leveson inquiry that he felt the press should 'tell people what they are voting for'.....still waiting.....92,000 dead at the hands of the DWP.....nobody understands how to stop facism.....why???

The press currently are not compliant with UK criminal and civil laws.....still waiting (four years on).

If any of you feel that the press should continue as they are, resign immediately and allow real people to do what you will not. I'll offer my services for free.

Delaying regulation isn't fooling anyone.

The press are nothing but vile propagandist's, so is the government, earn your money and rein them in.

Regulate the press or GO AWAY.

Thank you in advance for acting with integrity.

Douglas Clive Robertson
