

I followed the televised Levison Enquiry at the time and was impressed by his handling of the process, sickened by much of what was revealed about press behaviour and am saddened by the avoidance in implementing his recommendations in full.

I do support press freedom just as I support individual freedom and human rights but organisations just as individuals must be accountable to society for wrong-doing.

I write to support the 'Hacked Off' position ' that section 40 is commenced as soon as possible'

Geoffrey Bell
